**Subject:** PRIME Reporting Guide Update

**Attachments:** PRIME Reporting GuideV2.3 rev 09.23.16.pdf

Dear Platform Users,

After feedback from our users we have made a few updates to the reporting guide affecting the following metrics:

- 1.4.1 Abnormal results follow-up: % of abnormal results with appropriate and timely documentation and follow-up
  - Added as a metric exception
  - Guidance for reporting in DY11 added
- 2.1.6 Prenatal and Postpartum Care
  - Removed from the sub-rate grouping and made into a separate metric exception
  - Prompt in platform to reflect changes by Monday
- 2.7.5 Palliative Care Service offered at the time of diagnosis of advanced illness
  - Added as a metric exception
  - Guidance for reporting in DY11 added

The updated reporting guide, version 2.3, is attached.

An issue with incorrect display of Next DY Target Rates (TRs) has been brought to our attention. DHCS understands the implications of the incorrect TR display and we acknowledges that these TRs as displayed on the PRIME Reporting Platform are inaccurate. Our IT staff is currently working to amend this issue in a timely manner, however this may not be accomplished within the timeframe of the DY11 reporting period. Please consider this message as official notification that the TRs displayed in DY11 reports should not be considered final and are not the TRs that will be applied to DY12 reporting.

We thank you for your feedback and for your patience. We are working to make any updates as they are made known to us. Please direct any questions or comments to [PRIME@dhcs.ca.gov](mailto:PRIME@dhcs.ca.gov) or to your PRIME liaison.

Thank you,

DHCS PRIME Team
