

UC Irvine

- **System Name: UC Irvine Health**
- **Contact info (name, email): Scott.Thompson@uci.edu**
- **Dashboard name: PRIME Dashboard**
- **Dashboard target audience: ELT, PRIME improvement teams, data stewards and ambulatory providers and staff**
- **Dashboard use:**
 - **1) identify current metric progress towards achievement**
 - **2) Compare current and previous period metric scores**
 - **3) Identify patients needing measure items, arriving at a location today (or soon), or my patients arriving today (or soon) to “any’ UC Irvine Health location**

Dashboard Attributes

- Source of data (EHR, decision support system, data warehouse, etc.): Data warehouse (SQL) and Tableau Views. Import scores from Press Ganey, CMQCC, Tonic4Care (REAL/SOGI) and NHSN
- Analysis and reporting platform/application: SQL Server and Tableau
- Drill down capability (e.g., facility, care team, provider, patient): by patient, per metric, by attributed provider and location
- Stratification available (e.g., gender, age, race, etc.): no
- Self service for target audience (e.g., centrally produced and distributed): yes
- Frequency of data refresh (e.g., monthly, daily, real time): Daily
