

The Safety Net Analytics Program (SNAP) team is conducting a survey to measure current utilization of data and the desire to improve care through the use of data of mid-level managers. Your participation in the survey will help influence future data resources. Thank you so much for your time.

If you have any questions please don't hesitate to contact Ryan Saelee at [rsaelee@hsd.cccounty.us](mailto:rsaelee@hsd.cccounty.us)

**\* 1. What is your primary work area? Select ONE area or fill in the "other" field.**

**In this survey think of your "unit" as the work area, department, or clinical area of the hospital or health center where you spend most of your work time.**

Other (please specify)

**\* 2. How do you currently use data? (Select All That Apply):**

- Generating reports for meetings
- Training staff members
- Tracking patients for performance improvement & safety
- Inform policy change within the unit

Other (please specify)

**\* 3. Which of the following data tools do you use for your work? (Select All That Apply):**

- ccLink
- iSite Reports
- Microsoft Excel

Other (please specify)

**\*4. What factors have hindered you from using data in your work? (Select All That Apply):**

- Lack of access to Data
- Data inaccuracy
- Lack of knowledge and skills on data tools
- Lack of time to gather and analyze data
- No benefit of using data on current work

Other (please specify)

**\*5. Do you plan on using data in your future work?**

- Yes
- No

**\*6. What would be helpful to increase and improve the use of data? (Select All That Apply):**

- In-Person trainings on data tools
- Data training manual for your specific unit
- More time with the information technology (IT) team
- A tool to compare the data within our health system to other health systems

Other (please specify)

**7. Additional Comments (optional):**
