Agenda: Data for Population Health Meeting

Thursday, February 7, 2019, 8:30-3:30 |Register here

Materials available safetynetinstitute.org/data

International Ballroom, Oakland Airport Hilton Hotel, One Hegenberger Road, Oakland, California, 94621

Participants will:

✓ Identify solutions to optimize data analytics that support population health and value-based care
✓ Understand opportunities to strengthen data governance and pop health/BI workforce capacity
✓ Learn how peer PHS are leveraging data for shared care planning, risk-adjustment, and other critical population health capabilities
✓ In a special session, prepare to migrate successfully to new enterprise EHRs

8:30-9:00am   **Breakfast, Networking & Registration**
Note: breakfast will be served until 10:00am

9:00-10:30am   **Lessons Learned: EHR Implementation**
Three member systems will share their experiences migrating to new EHRs and attendees will discuss challenges and solutions
Optional morning session: Open to all; systems migrating EHRs in the next few years strongly recommended to attend.
