Welcome!

# MEETING OBJECTIVES

---

## Part 3

- Share Ideas on:
  - Decision Points on What To Do Next
  - How Portals Can Be Used to Improve Outreach
- Q&A

## Part 2

- Learn What is Trending
- Learn Innovations That are Working in the Safety Net

## Part 1

- Learn Priorities From Each Other
- Hear Survey Results

# AGENDA

- Quick Vote
- Share Your Pre-Conference Survey Responses
- Share Portal Deployment Innovations!
  - Trends that are Useful to Know
  - Los Angeles DHS – Redeployment Example
  - Six Keys to Portal Redeployment Success with Examples from California Safety Net Organizations
- Weighing Your Next Steps – What Are Your Decision Points?
- Share Potential Portal Uses for Outreach

What would be the one most wanted  
portal function if you asked your  
providers – to best engage their patients  
– to best save time for everyone?

## Final Discussion Question

What is one new thing you learned today to improve use of the patient portal to reduce care gaps/improve patient outreach?

# Survey Results

Your Survey Questions Highlighted Throughout

### Which of the following best describes the level at which your organization currently uses patient portals?

## *How many patients have signed up for the patient portal (approximately)?*

- PHS generally have around **25-35%** of patients signed up for a patient portal

Note: “Active” User % is Underreported

What differences are others seeing in enrollment versus active use?

**Describe some of the current challenges of implementing and using secure messaging for your system.**

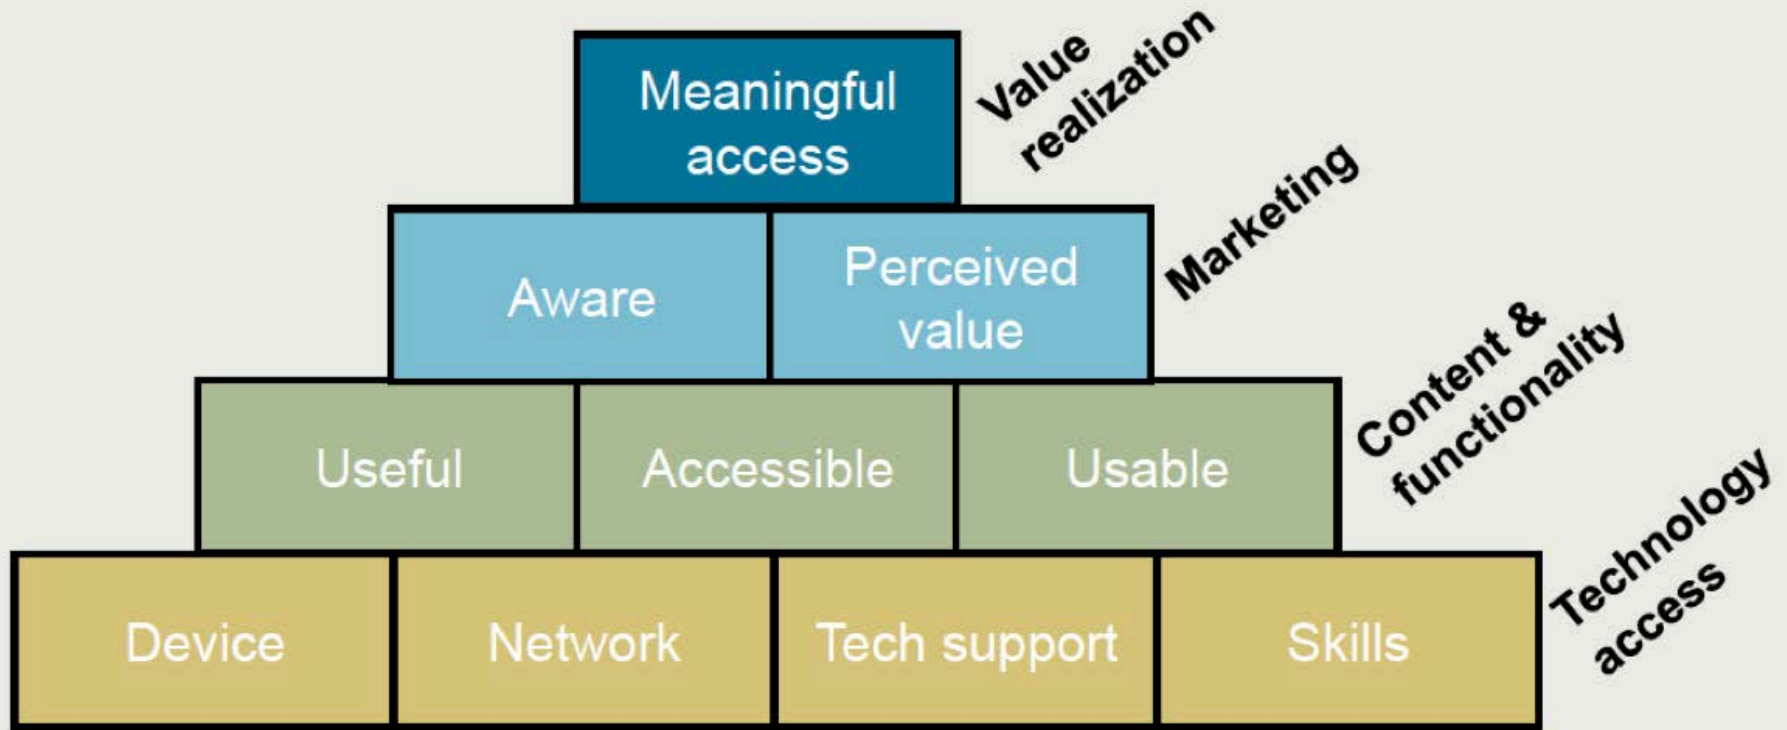

# Successful Patient Portal Innovations

# Trends in Portal Operations That Are Useful to Know

What's The Landscape?

# *Meaningful Patient Engagement*

Kaiser Presentation on Disparities in eHealth, 10/26/11, Tim Kieschnick

# National Trends

## Benefits

### Information Sharing

- Care Records
- Bi-directional Communications
- MU \$

### Marketing

- Strategic differentiator

### Future

- Secure Communication
- Inreach and Outreach Options

## Drivers

### Patients:

- View Lab Results
- Secure messaging
- Manage Appointments
- Refill Prescriptions
- View/Download Record
- Complete Forms
- Pay Bills

### Clinics/Providers:

- Administrative efficiencies (less calls)
- Save time on routine tasks
- More time for critical patients

### Patients:

- “Digital Divide”
- Literacy
- Language
- Privacy concerns

### Providers:

- Potential for added work
- Lack of reimbursement
- Inappropriate use by patients
- Liability for security breaches

## Barriers

# National Trends

What do we know about developing patient portals? a systematic literature review

Terese Otte-Trojel<sup>1</sup>, Antoinette de Vries<sup>1</sup>, Thomas G Rundall<sup>2</sup>, Joris van de Klundert<sup>1</sup>

Development Problems	Solutions
Patient engagement Privacy and confidentiality concerns Awareness Usefulness and usability Digital access Health literacy Socio-economic disparities	Patient-centered design Training and education <sup>a</sup> - Promotional initiatives <sup>a</sup>
Health service provider engagement Workload and workflow Skills and capacities	Workflow engineering Workflow training <sup>a</sup> Notifications and signaling of urgency

## Interest is not the barrier

- 70% of patients in the SF safety net interested in e-communication w/ providers:

90% of pts w/ current email account, 50% of pts w/out email account

**There is interest!**

The State of the Digital Divide  
and Implications for Patient  
Outreach

University of California, San Francisco

# Portal Enrollment and Active Use

# What is on the Horizon?

- 211/Unite Us Connections to Resource Support, including more detailed fields that help connect to resources (REAL & SOGI)
- Forms via eClipboard – previsit, ongoing care, annual surveys, etc
- Enrollment and Insurance AI – autopopulate information, including more detailed fields that help connect to resources
- Secure Login to Suite of Communication Options - Telemedicine Visits
- Input options and analytics for self-wear/personal devices (BP, Glucose, Healthy Lifestyle)

# LA DHS Patient Portal Redeployment:

An Example of Redeployment  
Success

# LA DHS: “Patient Portal is the Foundation for Secure Patient Engagement in the Digital Age”

## “Purposeful” Redeployment Strategy

- Senior Leader Push
  - Engage Providers – Champions Helped Build Simple Training Toolkit
- Survey and Site Visit
- Strategic Planning Senior Leader Meeting – Everyone Voted on Top Action Items
- Program Management Tracking Tool - Clear Action Item Owners
- Marketing Support for Top Action Items
- Top 5 Action Items:
  - Start Live Scheduling
  - Put Lifestyle Reminders (ELM, etc) on Portal
  - Make User Experience for Spanish-primary speakers easier
  - Allow Phone Numbers to Be Used To Enroll
  - Develop Process to Send Appointment Reminders

How do I get providers/staff to want to use it?

# Senior Leader “Bump”

**Diana Turck's Desk**

This issue of the Pulse highlights our phenomenal performance on Friday, November 9, and our October 2018. The focus is on our patients and their health. We also have their medication lists, and we have information on how to get help with chronic diseases and their risk factors, such as high blood pressure, diabetes and tobacco use. I am especially grateful to the staff and leaders who have

worked hard to ensure our patients' safety and well-being. Your creativity and dedication will have a lasting impact on the health of our community.

Please join the challenge to enroll our patients in the DHS Patient Portal! Using the Portal, patients can check up on their lab and radiology results, communicate with their provider and health team, refill prescriptions, make appointments, among other functions. This is a great way for patients to receive information and services they need right from their homes. Please encourage the patients you interact with to enroll today!

Finally, please extend this holiday season to all those who are impacted by talented and dedicated work force. Please be generous in showing our staff the ways in which you appreciate their contributions every day. To each of you, I send my warmest and fondest wishes for the holiday season!

**In This Issue**

DHS Specialty Care Forum Hearing from the Front Line

MyWellness Patient Portal Enrollment Campaign Kicks Off

## DHS Specialty Care Forum: Hearing from the Front Line

By C. Amanda Savel, MD

The Department of Health Services (DHS) Specialty Care Initiative is a Specialty Care Forum with a focus on all specialty care services in Los Angeles County. The forum is a series of virtual sessions for Specialty Care leaders to explore emerging issues in specialty care and to share best practices. The forum is a platform for specialty care leaders to share their expertise and to learn from each other. The forum is a platform for specialty care leaders to share their expertise and to learn from each other. The forum is a platform for specialty care leaders to share their expertise and to learn from each other.

Specialty Care Forum attendees at the DHS Specialty Care Forum. Photo credit: DHS.

Health Center, Olive View-UCLA Medical Center and USC Outpatient Center. Over 100 specialty care providers and staff members attended the forum. The forum is a platform for specialty care leaders to share their expertise and to learn from each other. The forum is a platform for specialty care leaders to share their expertise and to learn from each other. The forum is a platform for specialty care leaders to share their expertise and to learn from each other.

See "PULSE" on page 11

Please join the challenge to enroll our patients in the DHS Patient Portal! Using the Portal, patients can check up on their lab and radiology results, communicate with their provider and his/her team, refill prescriptions, reschedule appointments, among other functions. This is a great way for patients to receive information and services they need right from their homes. Please encourage the patients you interact with to enroll today!

## Listen to Your Providers

*“What is it about the portal that you love – that makes it worth the clicks”*

*“ What is it that your patients would love about the portal – to overcome the enrollment/password reset/clicks hassle?”*

How do we identify value to providers and staff to make patient engagement part of their processes?

# Listen to the Patient - Focus Groups

- Focus groups at Harbor-UCLA and Mid-Valley (Dr. Alejandra Casillas)
  - English and Spanish speakers
- "My appointment letter came 2 days after my scheduled first oncology appointment. It would be great to see appointments on the portal."
- "I waste time on Facebook. I would rather be checking on my health just like I check my bank account."

# Listen to the Patient - Surveys

## Patients are interested in the portal and have access to the internet

- 167 patients surveyed across DHS sites this year
  - 73% report access to the internet
  - 65% have not heard of MyWellness
  - 16% report being enrolled in MyWellness
  - 68% report being interested in enrolling in MyWellness

# IT Support

# Targeted Marketing

  - Barbara Rubino (LAC+USC), Jen Chen (Mid-Valley), Shari Doi (PAC)

# Enrollment and Active Use

## WHAT WE'VE ACCOMPLISHED

Doubled the number of active users

**Enrolled  
Patients**

**Monthly  
Active Users**

**Use  
Mobile**

## Quotes From Staff After 6 Months

- *Providers are starting to really like it – it saves time and increases the quality of patient care!*
- *Providers report more comprehensive visits with portal users*
- *Providers report portal patients participate more in shared decision-making*
- *Saves time for everyone – major reduction in admin task time/calls*

# Future Directions

# Future Goals

## Short-Term Goals

- Create a Virtual Patient Advisory Group
- Improve Functionality and Usability
- Upgrade Patient Education
- Engage Specialty, Nursing, Inpatient leaders
- eClipboard

## Long-Term Aspirations

- Telemedicine and Video Visits
- Texting
- Plug in your home device (glucometer, etc)
- Customer Relations Management (CRM) tool
- Remote Monitoring

# Show Movie Clip

# Six Keys to Portal Redeployment Success

---

## *Examples From California Safety Net Organizations*

1. *Strong Leadership*
2. *Focus on What Really Drives Portal Use*
3. *Focus the Marketing*
4. *Staff Engagement*
5. *Supportive IT*
6. *Comprehensive Metrics*

# 1. Strong Leadership

Dedicated team  
leadership

Multidisciplinary  
Deployment Team

Detailed strategic

Keep pushing for the goals, even when there are setbacks because the result of hard work and commitment is worth it to the Team and to your staff.

# 2. Focus on What Really Drives Use

*"It's a simple stress test—I do your bloodwork, send it to the lab, and never get back to you with the results."*

# User Friendly and Useful!

Development Problems	Solutions
Patient engagement	Patient-centered design
Privacy and confidentiality concerns	Training and education <sup>a</sup>
Awareness	Promotional initiatives <sup>a</sup>
Usefulness and usability	

What do we know about developing patient portals? a systematic literature review; Otte-Trojel T, et al. J Am Med Inform Assoc 2016;23:e162–e168. doi:10.1093/jamia/ocv114, Review

# Learn from Your Patients

*“We learned that just getting people logged on is a significant barrier.” ¶*

*San Francisco Health Network ¶*

## Learn From Your Providers

*“What is it about the portal that you love – that makes it worth the clicks”*

*“ What is it that your patients would love about the portal – to overcome the enrollment/password reset/clicks hassle?”*

# Best Practices

# Patient Surveys

## Patients are interested in the portal and have access to the internet

- 167 patients surveyed across DHS sites this year
- 73% report access to the internet
- 65% have not heard of MyWellness
- 16% report being enrolled in MyWellness
- 61% report being interested in enrolling in MyWellness

# Meet Patients Where They Are

- If you want to improve use in the Spanish-primary speaking population:
  - User friendly and correct language use on portal pages
  - Engage cultural connections – promotoras, family support structures
  - Engage specific uses – migrant worker father on heart medication...
  - Marketing should reflect the target community

How do best increase use in the Spanish-speaking population?

## Target High Value Uses

- Opening “Live-Scheduling” feature – we are very excited to expand this to other clinic locations

# 3. Focus The Marketing

# Dedicated and Responsive Marketing Support

Los Angeles County Department of Health Services  
MyWellness Patient Portal

## MyWellness Marketing & Communications Roadmap

This document provides a framework for marketing and communications for the MyWellness Patient Portal to patients to achieve the following objectives:

- Create awareness and understanding of the benefits of MyWellness
- Motivate patients to enroll in MyWellness to manage their health care activities
- Build acceptance and confidence in using MyWellness to manage health related activities

### Target Audiences

- Ambassador and Patient Advocacy Groups - Provide instructions, educational materials, assistance in setting up MyWellness accounts to patients.

**Dedicated  
Marketing  
Name for Portal**

# Check your records online using the new **MyWellness Patient Portal** / Revise su expediente en línea con el **nuevo Portal de paciente MyWellness**

### FREQUENTLY ASKED QUESTIONS

**1.) Can I give access to my family member who cares for me?**

Yes, you can grant access to those who are caring for you and overseeing your health care. With your permission, they will be able to schedule appointments, request prescription refills, and handle other healthcare needs.

**2.) What kind of questions can I ask on the Patient Portal?**

You will be able to ask your Provider and Care Team any non-urgent medical questions about your lab results, medications, or your health issues.

**3.) How do I know my health information is secure?**

NEVHC follows strict (HIPAA) practices to protect your information. The data on your Patient Portal is safe as long as you do not share your log-in information with others.

# 4. Staff Engagement

## **What are 1-2 lessons you have learned?**

- Providers are a great marketing tool for enrollment
- The portal is worth the investment in time & energy – more patients on the portal → less work for call center

- **The biggest impact we've seen from this solution:**
- Focus on the “low hanging fruit”, determine what the practice does most consistently and apply portal technology to assist in existing workflows.
- Get a provider onboard early, having our CMO onboard with Patient Portal yielded increased utilization quickly.
- “Quick Vids”, record basic portal function workflows and make those recordings available to staff utilizing patient portal.

# LA DHS Enrollment Competition

Around DHS

## MyWellness Patient Portal Enrollment Competition Kicks Off

By Damiyah McKell and Ismael Chinchilla

On November 1, 2018, DHS kicked off a department-wide MyWellness Patient Portal enrollment competition for staff. MyWellness Patient Portal is a website and mobile app that allows patients to take control of their health. Patients are able to use MyWellness to:

- Schedule appointments
- Refill prescriptions
- Message their provider and medical team
- View lab and radiology results
- View provider notes

When staff help patients sign up for the portal, lines in our waiting rooms can be reduced since so many routine actions can be handled online. This will help us improve direct care for the patients in our clinics, ER's and hospitals.

The competition is as follows: Staff invite patients to register for the MyWellness Patient Portal during any stage of their hospital and clinical visit (Intake, Clinical, Pharmacy, Labs etc.). Once patients receive the email, they can register online and start managing their health.

The competition will last for three months from November 2018 to January 2019. At the end of every month, the service team with the highest number of enrollments will be rewarded with a celebratory party: a Pie Party in November 2018, a Tamale Party in December 2018 and a Pizza Party in January 2019. The persons with the highest individual number of enrollments in November 2018, December 2018 and January 2019 will be featured in a marketing campaign (three separate winners).

The impact of MyWellness Patient Portal is already being felt. "I recently had a patient avoid an ER visit by managing asthma by using the portal. My patients love having wonderful family caregivers who can communicate with the clinic via the portal. My patients love being able to see their lab results and read my notes. I personally save time by messaging patients through the portal instead of relying on repeated phone calls and voicemails," said Dr. Anshu Abhat, Director of Digital Patient Engagement.

For more information on how to enroll patients or the competition visit: [bit.ly/patientportalsharepoint](https://bit.ly/patientportalsharepoint). For specific questions on how to enroll patients or the competition details email: [marketing@dhs.lacounty.gov](mailto:marketing@dhs.lacounty.gov) or call (626) 525-5333.

# My Wellness Patient Portal Competition Update December Winners!

# 5. Supportive IT

## Key Take-Away Points for Health Systems

Approaching health tech as an IT solution will fail. Needs to be integrated across clinic workflows and approached as a shift in care delivery. Usability challenges and language barriers remain.

Can I customize the portal options?

- Find out what the vendor offers in the current contract – are we using the portal to its fullest capability?

# Challenges and Solutions

- **Our biggest challenge in this last year:**

*Texting Vs Patient Portal*

*- Portal is better positioned for clinical discussion regarding care.*

Current Statement

Past Statement

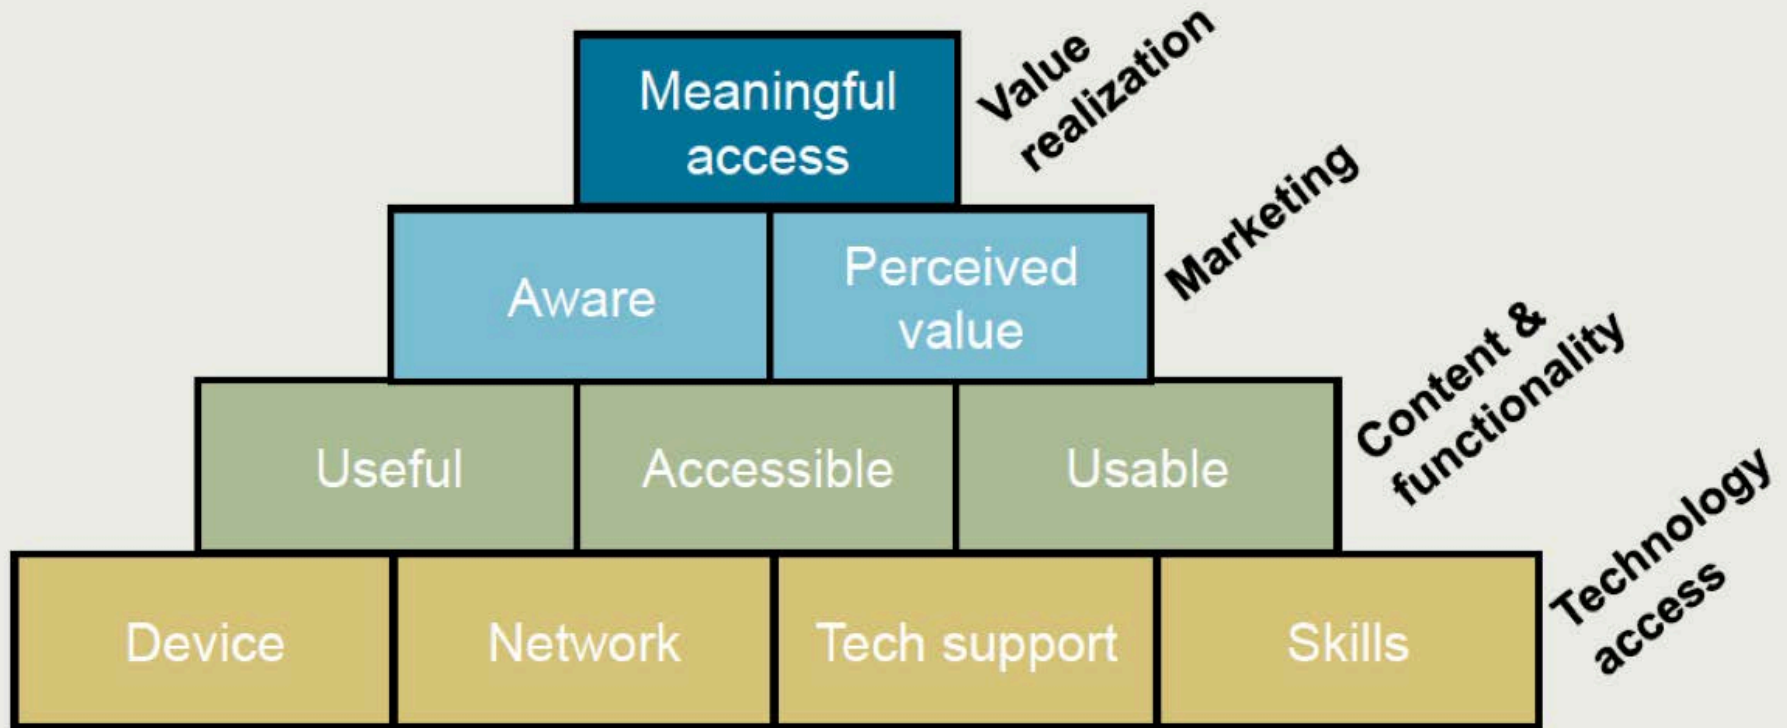

## Secure Messaging

- Maintaining contact with our patients from our High School clinic while they were on Summer Break

# Decision Points

# Meaningful Patient Engagement

Kaiser Presentation on Disparities in eHealth, 10/26/11, Tim Kieschnick

# Decide

## Wait

- Unsure of board/senior leader support versus other projects
- Unknown EHR vendor options
- Looking at other secure communications platforms - texting?
- Other?

## Start Portal Enrollment Increase Project

- EHR vendor options are useful
- Known specific patient engagement use
- Known incentive payment enhancement
- Want secure communications platform
- Board/Senior leader optimism and support for project and team

# Final Discussion Question

What is one new thing you learned today to:

improve use of the patient portal to reduce care gaps/improve patient outreach?

# Q & A

Jim Meyers, DrPH

Safety Net Patient Portal

SME Consultant and Senior Leader Coach
