

PRIME/QIP Metrics Office Hour

Tuesday, February 11, 12:00-1:00pm

Presenters: David Lown, dlownd@caph.org
Dana Pong, dpong@caph.org

[Play recording \(26 min\)](#)

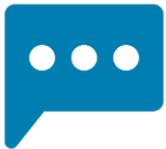

Housekeeping

- Lines are muted on entry

- Please mute locally & unmute to ask questions

- At any time, feel free to chat your question & we will read out

- Webinar will be recorded and saved on SNI Link: [PRIME Webinars](#) and [QIP Webinars](#)

Reminder: Transcribing Questions

- On Office Hours we transcribe questions asked into the live PowerPoint deck, which will be saved on SNI Link
- Goal is to create more user-friendly resource
- **Help us today by:**
 - Chatting in your questions

Health Plan Data Survey + Interviews

- Effective working relationships & data sharing processes for shared quality initiatives between DPHs and their Medi-Cal Managed Care health plan partners are increasingly essential for both organizations' success under an expanded future QIP
- To support these collaborations around quality SNI will
 - Survey DPHs on DPH-health plan data sharing for quality reporting (via SurveyMonkey)
 - Conduct DPH interviews focused on effective collaboration for successful quality initiatives, specifically QIP and HEDIS.

Timing

- By 1/31 – Survey tool and interview protocol sent to PRIME/QIP leads
- **By 2/7** – Recommended interview leads sent to Kristina Mody
- **By 2/18** – Data Sharing Survey due
- By 3/13 – Interviews conducted

QIP

Reminder: QIP Questions are saved on the [PCS report on SNI Link](#)

Q&A: QIP

- Q: If reporting on a PY3 measure for the first time in PY3 and it is a new measure to PY3, since there is no PY2 manual, should we use PY3 manual for both PY3 performance and baseline?

PRIME

Reminder: PRIME Questions are saved on the [PCS report on SNI Link](#)

Member request

- Are any health systems making progress reducing the disparity in Flu Vaccination rate amongst African-Americans?

Q&A: PRIME

- Q: Question from SMMC for PRIME when we get there- for metric 3.2.4- with the new sub-rates- what should we do if we have a patient who has BOTH a plain x-ray AND an advanced imaging study. Do we put them in both sub-rates (each for their own scan) or does one scan get prioritized over the other? Thank you!
- Q: Diabetes measures in PRIME & QIP denominator: identifying diabetes population using by pharmacy and encounter claims. Is the measure saying you can choose which one to use or do we have to use both?
- Q: Regarding the PY 3.5 "transition metric manuals" for projects 1.3 and 2.1:
 - Aside from changing postpartum care to HEDIS 2020 definitions, are there other high level changes that need to be used for PRIME March 2020 submission?
 - Why are 1.3 and 2.1 projects called out for this "transition" and not the remaining PRIME projects?

Q: PRIME 3.5 baselines (to calculate 10% targets), what spec and measurement years do we use?
