**Subject:** QIP Updates: Q-RU4, PY 3 Manual Corrections and QIP App  
**Attachments:** PY3 Corrections for PC9 PC10 PC13 RU6\_1\_31\_20.pdf

Dear QIP Entities:

Please see the below QIP updates:

**PY 2 Q-RU4: 30 Day Unplanned Return to the OR**

DHCS has been notified that the NSQIP has not yet released the January 2020 Semi-Annual Report (SAR). Therefore, DHCS is extending the deadline for submitting updated PY 2 data to up to one week (7 calendar days) after the entity receives the SAR from NSQIP. To report your data, please contact your QIP liaison as soon as you receive the SAR from NSQIP. Upon request, your liaison will unlock this measure in the QIP Reporting Application for your updates. Please note that your narratives must align with your updated data.

**PY 3 Reporting Manual Corrections**

Please see the attached document describing the corrections to Q-PC9, Q-PC10, Q-PC13 and Q-RU6. Entities are responsible for adhering to these corrections.

**QIP Reporting Application Updates**

The QIP Reporting Application has been updated. Updates include:

- Updated PY 3 target rates using a 8.5 % gap closure when applicable
- Next PY Target Rates displaying N/A when the metric is discontinued the next PY
- Q-RU4 target rates and negative Achievement Values resolved
- Q-PC7 and Q-RU5 measure level questions (Data Collection Type, Data Collection Source) are now properly displaying in the exported PDF report

Please contact your QIP liaison as soon as possible with any questions.

Thank you,

**The QIP Team**
