**Subject:** UPDATE: QIP 3.0 Readiness Summit -- Date Changed from 4/2 to 6/8  
**Importance:** High

Hello all. Over the past couple weeks, we've been monitoring the spread of COVID-19 and the advisories and guidance offered by many of your counties, as well as the California Department of Public Health. In the past several days, we've been informed that at least four of our members' counties/systems have put in place travel restrictions prohibiting non-essential business travel. These advisories, along with our members' shifting focus to operational readiness for COVID-19 and the general concerns many have regarding travel, have led us to **postpone the QIP 3.0 Readiness Summit to Monday, June 8, 2020.**

Please re-register with this [new link](#) for the June 8 meeting if you can attend, and make the appropriate travel adjustments.

Of course, we'll continue to monitor travel guidance/advisories as the June 8<sup>th</sup> meeting date approaches and be in touch with you should anything change.

Thank you,  
Giovanna
