Cerner Safety Net User Group (cSNUG)

Wednesday, May 18
12-1pm

Agenda

Topic	Lead(s)
Welcome, Logistics & Intros	David Lown
Discussion: CAIR, Vaccine Scheduling, and Improving Vaccine Uptake	All
Wrap-up & Announcements • SNI Updates	David

Logistics

☺ You're encouraged, but not mandated, to go on video!

🔇✖ Please mute yourself! (We'll have to mute lines if there is background noise)

💬 Please feel free to speak up or chat in any questions

🎙 Webinar will be recorded for note-taking purposes

📋 Please complete our post-event survey (posted in the chat)

Cerner Safety Net User Group (cSNUG): Peer Sharing

May 18, 2021

Discussion: Query CAIR from Cerner

- Have DPHs your CAIR2 HL7 Message Endpoints? And if you have, how has the query/response speed changed?
- Who is using [SnowFlake](#) to populate their EHR with COVID Vaccination history? How is this working?
- *Previous questions*
  - What challenges are folks continuing to have with state/regional vaccine registries?
  - How are others populating their EHR with COVID vaccination history without the ability to import directly from CAIR? E.g. has anyone established a bulk import ability to Millennium rather than the one off Import function?

Discussion: Scheduling for Vaccines

- How many are through MyTurn?
- How many are self-scheduled?
- How are you dealing with scheduling for HRSA vaccines that are supposed to go to patients that have a PCP at that location?
  - Do you open for self-scheduling on the portal?
  - How do you keep others from scheduling?
  - How many are patients you are calling to schedule?

Discussion: Increasing vaccine uptake

- Please keep the conversation EHR-related if possible and refer to our recent [report](#) and accompanying [webinar](#) on the equitable distribution of vaccines

Other topics?

Discussion: Meeting frequency and the future of cSNUGs

- FYI:
  - CIO/CMIO frequency will be reducing to Q3-6 months (TBD)
  - eSNUG will likely be shut-down
- How is the current frequency of cSNUGs (quarterly, and cancelled if no pressing topics)?
- How can SNI be more helpful to this group?

Wrap Up

Next meeting

- To be rescheduled from Aug 11, 2021

- Time permitting, please share any other topics that you would like to discuss with the group for future cSNUG meetings.
